

Reading comprehension:

(1) Aicha nervously plays with her backpack strap as she stands in front of her new school. It's her first day, and she feels like a fish out of water.

Taking a deep breath, Aicha pushes open the heavy front door and steps inside. The corridor buzzes with activity as students rush to their classrooms. She glances down at the crumpled schedule in her hand, trying to make sense of the room numbers.

(2) Suddenly, a friendly voice catches her attention. "You look a bit lost. Need any help?" Aicha looks up to see a girl with curly hair and a bright smile.

"Yes, please," Aicha replies, relief evident in her voice. "I'm new here, and I can't find Room 23."

"That's my class too!" the girl exclaims. "I'm Lara. Come on, I'll show you the way."

(3) As they walk, Lara chatters away, telling Aicha about their teacher, Mr. Aymen, and some of the exciting projects they're working on. By the time they reach the classroom, Aicha's nervousness has melted away, replaced by a spark of excitement for the day ahead.

(4) Mr. Aymen welcomes Aicha warmly and introduces her to the class. As she takes her seat next to Lara, Aicha realises that maybe being the new student won't be so bad after all. She has already made a friend, and a whole world of new experiences awaits her.

COMPREHENSION QUESTIONS (6 marks):

1/ Are the statements below True or False, circle the correct option: (2 marks)
